The Corporation is authorized to issue an unlimited number of non-voting, non-convertible series 1, class B preferred shares (the "Preferred Shares"). The Preferred Shares are not publicly traded. The Preferred Shares were initially measured at their fair value net of any directly attributable transaction costs and are subsequently recognized at amortized cost. The Preferred Share liability is revised for any changes in cash flow estimates at the end of each reporting period using an income approach based on the initial discount rate applied (15.2%), the change in the time-value of money, and dividends paid. The change in the time-value of money is reflected as accretion expense. The adjustments to the carrying value of the Preferred Shares are recognized as a revaluation recovery or expense and accretion expense within finance expense on the Preferred Share liability on the condensed consolidated statements of income (loss).

These costs are capitalized on an agreement basis and amortized over the same term as the agreement to which they relate. The amortization of these franchise payments is recognized against revenue. 18. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Board of Directors has the responsibility to establish and oversee the Corporation's risk management framework. The Board of Directors has implemented risk management policies, monitors compliance with them, and reviews them regularly to reflect changes in market conditions and in the Corporation's activities.

The Corporation's financial risk management policies have been established to identify and analyze risks faced by the Corporation, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. The Corporation employs risk management strategies to ensure our risks and related exposures are consistent with the Corporation's business objectives and risk tolerance levels. While the Board of Directors has the overall responsibility for the Corporation's risk management framework, the Corporation's management has the responsibility to administer and monitor these risks.

The Corporation is exposed in varying degrees to a variety of risks from its use of financial instruments, which mainly include cash and cash equivalents, trade and other receivables, investments, accounts payable and accrued liabilities, loans and borrowings, preferred share liabilities and foreign exchange forward contract liabilities. Because of the use of these financial instruments, the Corporation and its subsidiaries are exposed to risks, including market risk, credit risk and liquidity risk. This note describes the Corporation's objectives, policies and processes for managing these risks and the methods used to measure them.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks are comprised of foreign exchange risk and interest rate risk.

Foreign exchange risk

The Corporation's exposure to foreign exchange fluctuations is limited to our cash balances in USD bank accounts; USD loans and borrowings; USD foreign exchange forward contract; and USD interest expense. At June 30, 2021, the cash balance is USD $4,894 (CAD $6,061), compared to USD $267 (CAD $340) at December 31, 2020. At June 30, 2021, the USD loans and borrowing balance is USD $29,928 (CAD $37,066); at December 31, 2020, it was USD $30,735 (CAD $39,132). A 10% strengthening of the U.S. dollar against the Canadian dollar would result in a $500 increase and $270 decrease in income before tax for the three and six months ended June 30, 2021, respectively (June 30, 2020—$3,497 and $1,088 decrease).

(in thousands of Canadian dollars)

The Corporation's foreign exchange gain (loss) is comprised of foreign exchange fluctuations on our USD bank accounts, USD loans and borrowings, USD interest expense (together, "foreign exchange gain (loss) on debt"), and foreign exchange fluctuations on our USD foreign exchange forward contract ("change in the fair value of foreign exchange contracts"), as follows:

	For the three months ended June 30,		For the six months ended June 30,	
	2021	2020	**2021**	2020
Foreign exchange gain (loss) on debt	**$ 526**	$ 1,688	**$ 975**	$ (2,021)
Change in fair value of foreign exchange contracts	**(373)**	(395)	**(764)**	1,666
Foreign exchange gain (loss)	**$ 153**	$ 1,293	**$ 211**	$ (355)

To manage the Corporation's foreign exchange exposure on its USD loan, the Corporation previously entered into both an amendment of its Sagard credit facility and an intercreditor agreement, which collectively allows the Corporation to enter into foreign exchange forward contracts up to USD $25,000. The forward contracts are secured through the intercreditor agreement between the Corporation, its lender (Sagard) and the counterparty, which allows the counterparty security up to CAD $7,000. The Corporation has USD $24,000 foreign exchange forward contracts outstanding that were entered at a blended rate of $1.383. As at June 30, 2021 the blended forward rate was $1.241 (December 31, 2020—USD $24,000 at a blended forward rate of $1.273). The foreign exchange forward contracts can be settled at any time (at the Corporation's option) within a period of six months from December 14, 2021 to June 14, 2022.

During the six months ended June 30, 2020, the Corporation unwound its USD $15,000 foreign exchange forward contract, which was entered into in December 2019, at a forward rate of $1.442 for net proceeds of $1,469. The Corporation recognized a net realized gain on the change in fair value of the foreign exchange forward contract from inception of $1,696, and during the six months ended June 30, 2020, of $2,061. The Corporation has not unwound any forward contracts during the three and six months ended June 30, 2021.

The Corporation's change in fair value of the foreign exchange contracts consists of unrealized losses and realized gains as follows:

	For the three months ended June 30,		For the six months ended June 30,	
	2021	2020	**2021**	2020
Unrealized (loss)	**$ (373)**	$ (395)	**$ (764)**	$ (395)
Realized gain	**-**	-	**-**	2,061
Change in fair value of foreign exchange contracts	**$ (373)**	$ (395)	**$ (764)**	$ 1,666

Interest rate risk

The Corporation is exposed to interest rate risk on its variable rate loans and borrowings. A 1% increase in interest rates on variable rate loans and borrowings would have resulted in an $105 and $204 decrease of income before tax for the three and six months ended June 30, 2021 (June 30, 2020—$127 and $288 decrease).

Credit risk

Credit risk is the risk of financial loss to the Corporation if a counterparty to a financial instrument fails to meet its contractual obligations. The Corporation's credit risk is mainly attributable to its cash and cash equivalents and trade and other receivables.

The Corporation has determined that its exposure to credit risk on its cash and cash equivalents is minimal as the Corporation's cash and cash equivalents are held with financial institutions in Canada.

Our primary source of credit risk relates to the Core Business Operations' franchisees and agents not paying receivables. The Core Business Operations manages its credit risk by performing credit risk evaluations on its franchisees and agents, and by monitoring overdue trade and other receivables. As at June 30, 2021, $271 (December 31, 2020—$340) of our trade receivables are greater than 90 days' outstanding and total expected credit losses as at June 30, 2021 are $376 (December 31, 2020—$376). A decline in economic conditions, or other adverse conditions experienced by franchisees and agents, could impact the collectability of the Corporation's accounts receivable.

The Corporation's maximum exposure to credit risk approximates the carrying value of the assets on the Corporation's condensed consolidated statements of financial position.

		June 30, 2021		December 31, 2020

Trade, other receivables and other assets		**15,278**		14,987
Notes receivable		**491**		531
	$	**36,653**	$	25,834

Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they become due. The Corporation utilizes cash and debt management policies and practices to mitigate the likelihood of difficulties in meeting its financial obligations and commitments. These policies and practices include the preparation of budgets and forecasts which are regularly monitored and updated as considered necessary.

As at June 30, 2021, contractual cash flow obligations and their maturities were as follows:

		Contractual cash flow		Within 1 year		Within 5 years		Thereafter
Accounts payable and accrued liabilities	$	29,722	$	29,722	$	-	$	-

(3) Gross of transaction costs.

Capital management

The Corporation's capital structure is composed of total shareholders' equity and loans and borrowings, less cash and cash equivalents. The following table summarizes the carrying value of the Corporation's capital at June 30, 2021, and December 31, 2020.

		June 30, 2021		December 31, 2020
Loans and borrowings	**$**	**43,832**	$	40,778
Less: cash and cash equivalents		**20,884**		10,316
Net loans and borrowings	**$**	**22,948**	$	30,462
Shareholders' equity	**$**	**48,776**	$	49,467

The Corporation's objectives when managing capital include maintaining an optimal capital base to support the capital requirements of the Corporation, including opportunities to grow the number of DLC Group franchises and Newton's technology platform.

The Corporation is not subject to any externally imposed capital requirements other than certain restrictions under the terms of its loans and borrowing agreements. The Corporation is in compliance with all externally imposed capital requirements as at June 30, 2021 (see note 7).

Determination of fair value

The Corporation considers the following fair value hierarchy in measuring the fair value of the financial instruments presented in the Corporation's consolidated statements of financial position. The hierarchy reflects the significance of the inputs used in determining the fair values of the Corporation's financial instruments.

i. Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
ii. Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
iii. Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table provides the fair values of the financial assets and liabilities in the Corporation's consolidated statements of financial position, categorized by hierarchical levels and their related classifications.

	Carrying value as at June 30, 2021	**Fair value as at June 30, 2021** Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Financial assets				
Investments	$ **246**	$ -	$ -	$ **246**
Financial liabilities				
Foreign exchange forward contract liability	**(3,387)**	-	**(3,387)**	-
Loans and borrowings	**(43,832)**	-	**(43,832)**	-

	Carrying value as at December 31, 2020	Fair value as at December 31, 2020 Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Financial assets				
Investments	$ 246	$ -	$ -	$ 246
Financial liabilities				
Foreign exchange forward contract liability	(2,623)	-	(2,623)	-
Loans and borrowings	(40,778)	-	(40,778)	-

The fair value of trade, other receivables and other assets, notes receivable, accounts payable and accrued liabilities approximate their carrying value due to the short-term nature of these financial instruments. As at June 30, 2021, management has determined that the fair value of its loans and borrowings approximate their carrying value. The majority of loans and borrowings are subject to floating interest rates, and the Corporation and its subsidiaries' credit risk profiles have not significantly changed since obtaining each of the facilities.

19. COMMITMENTS AND CONTINGENCIES

Consulting agreement

In February 2020, the Core Business Operations renewed a consulting agreement whereby the Corporation has agreed to incur an annual amount of $150, paid quarterly, for consulting services related to promotional support. The consulting agreement expires in January 2022.

Service agreement

In March 2018, the Core Business Operations entered into an agreement with a software development company to develop and support a customized mortgage application ("app") for an annual amount of $932. The agreement is a related party transaction due to common management between the Corporation and the service provider. The service agreement expires in March 2023.

Contingencies

In the normal course of operations, the Corporation and its investees may become involved in, named as a party to, or be the subject of, various legal proceedings, including regulatory proceedings, tax proceedings and legal actions. The outcome of outstanding, pending or future proceedings cannot be predicted with certainty. As the outcomes of the claims are not determinable, no provision for settlement has been made in the consolidated financial statements. The Corporation does not anticipate that these claims will have a material impact on its financial position.

20. SUBSEQUENT EVENTS

Sagard Credit Facility Repayment

In July 2021, the Corporation made a repayment on its Sagard credit facility of CAD $6,881 (USD $5,201) from free cash flows.

Notice of Civil Claim

In July 2021, the Core Business Operations was served with a Notice of Civil Claim (the "Civil Claim") filed in the Supreme Court of British Columbia by a franchisee and its principal (collectively, the "Claimant"). Pursuant to the Civil Claim, the Claimant alleges various misconduct by the Corporation as a franchisor, all of which the Corporation denies. The Claimant is seeking certification of the Civil Claim under the Class Proceedings Act (British Columbia) and is seeking statutory damages for breach of the Franchise Act (British Columbia) and recission of franchise agreements between DLC and the potential class members. It is the Corporation's assessment that the Civil Claim is without merit, and as a result no provision has been recorded in these interim financial statements for the three and six months ended June 30, 2021.
