This Management's Discussion and Analysis ("MD&A") contains important information about the results of operations of Dominion Lending Centres Inc. ("we", "our", or the "Corporation") for the three and six months ended June 30, 2025, as well as information about our financial condition and future prospects. We recommend reading this MD&A, which has been prepared as of August 7, 2025, in conjunction with the interim condensed consolidated financial statements and related notes for the three and six months ended June 30, 2025 ("interim financial statements"), and our 2024 audited annual consolidated financial statements. Our interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), specifically International Accounting Standard 34 – Interim Financial Reporting. Unless otherwise indicated, all amounts are presented in Canadian dollars.

When preparing our MD&A, we consider the materiality of information. Information is considered material if (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of our shares; (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. We evaluate materiality with reference to all relevant circumstances, including potential market sensitivity.

The Corporation's class A common shares ("Common Shares") trade on the Toronto Stock Exchange (the "Exchange" or "TSX") under the symbol "DLCG". Continuous disclosure materials are available on our website at www.dlcg.ca, and on SEDAR+ at www.sedarplus.com.

OVERVIEW OF OUR BUSINESS

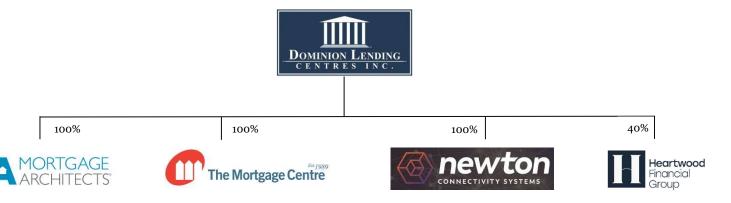

The Corporation is a Canadian mortgage brokerage franchisor and mortgage broker data connectivity provider with operations across Canada.

The DLC Group consists of the Corporation and its three main subsidiaries, being:

- MA Mortgage Architects Inc. ("MA");
- MCC Mortgage Centre Canada Inc. ("MCC"); and
- Newton Connectivity Systems Inc. ("Newton").

The Corporation also holds an indirect 40% equity interest in a non-B20 lender Heartwood Financial, LP ("Heartwood"). The Corporation is not responsible for Heartwood's debts and Heartwood operates independently from the DLC Group. The investment in Heartwood is an equity-accounted investment.

The following is the corporate structure reflecting the material entities:

Mortgage Brokerage Franchising (DLC, MA, and MCC)

The DLC Group is Canada's leading networks of mortgage professionals. The mortgage brokerage franchisor business of DLC is carried on under the DLC, MA, and MCC brands and has operations across Canada. The mortgage brokerage business's extensive network includes over 8,900 agents and \$37.5 billion in mortgage origination during the six months ended June 30, 2025 (\$67.4 billion for the year ended December 31, 2024). The business' franchise model provides secure long-term relationships with mortgage professionals, and the Corporation provides training, technology, marketing, recruitment, and operational support to its franchises and brokers.

Mortgage professionals provide services related to property purchases, mortgage refinances and renewals, credit lines, and other borrowing needs. Mortgage professionals originate mortgages but do not themselves lend money. The Corporation's agent growth is achieved both organically through ongoing recruiting efforts and by acquisitions, with a strong pipeline for future growth opportunities.

Newton Connectivity Systems Inc.

Newton is a financial technology company which provides a secure all-in-one operating platform in Canada called Velocity. Velocity connects mortgage brokers to lenders and various third parties. It provides end-to-end services to automate the entire mortgage application, approval, underwriting, and funding process, along with additional services to assist brokers with the management of their daily operations and access to data resources.

The operating platform provides services through various lender- and broker-facing products. Lender-facing products provide encrypted exchange networks to connect brokers with lenders and third parties. These include web-based services connecting brokers on Velocity to lenders and third-party suppliers, which allow for direct and secure submission of mortgage applications and supporting documents to lenders, and underwriting platforms to deliver digital credit applications from brokers to lenders. Broker-facing products provide deal-management tools and services, including the ability to automatically manage the brokers' revenue and distributions through Velocity, with additional services to match lender-verified products to a client's criteria, and automation of the payroll process. Further, Newton provides services to third-party users through the Velocity platform, ranging from consumer credit reports to borrower banking information.

Heartwood Financial, LP

Heartwood is a non-B2o residential mortgage lender focused on an underserved segment of the Canadian residential housing market. Heartwood operates independently from the Corporation and the Corporation is not responsible for Heartwood's debts. Heartwood's residential mortgage loans are offered exclusively through DLC Group's network of borrowers who are best suited to Heartwood's product offerings and qualify under its common-sense lending policies.

USE OF NON-IFRS FINANCIAL PERFORMANCE MEASURES

This MD&A includes certain non-IFRS financial measures which we use as supplemental indicators of our operating performance. These non-IFRS measures do not have any standardized meaning and therefore are unlikely to be comparable to the calculation of similar measures used by other companies, and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Non-IFRS measures are defined and reconciled to the most directly-comparable IFRS measure within the Non-IFRS Financial Performance Measures section of this MD&A. Non-IFRS financial performance measures used in our MD&A include adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA"), adjusted EBITDA margin, adjusted net income, adjusted net earnings per share, and free cash flow attributable to common shareholders.

Second Quarter 2025 Financial Review

Despite the overall macroeconomic outlook weakening early this year due to tariffs and global trade uncertainties, the Corporation has continued to generate strong results during the second quarter of 2025. Several market and internal factors drove our positive revenue and earnings growth in Q2 2025, including an active mortgage renewal market, expanded Velocity reach, greater market presence across Canada, and increased customer engagement initiatives. In addition to revenue growth, a continued focus on profitability and financial discipline resulted in strong earnings growth, free cash flow generation, and balance sheet.

- Revenue increased 31% from Q2 2024 to \$24.6 million and was driven by a 25% increase in Funded Mortgage Volume from Q2 2024, as well as an increase in the adoption of Velocity across our broker network to 82% from 72% in Q2 2024. The growth in Funded Mortgage Volume resulted from several different factors, including the growth in our broker network, internal initiatives to leverage Velocity to increase broker productivity and strength in the Canadian residential mortgage renewal market.
- Revenue from Franchise and Brokering of Mortgages increased 17% while Newton revenue rose 72%. Beginning in the second quarter of 2025, revenue generated from a third-party supplier was reclassified from Franchise to Newton revenue. The second quarter impact was a \$0.6 million increase in Newton revenue and a \$0.6 million decrease in Franchise revenue, reflecting the year-to-date dollar impact from the reclassification.
- General and administrative expenses increased 12% or \$0.9 million over Q2 2024 levels, with the increase stemming from two acquisitions completed at the end of Q2 2024, higher personnel costs, and higher IT-related costs. The additional general and administrative expenses from the two acquired brokerages was \$0.5 million for the quarter. On a percent of sales basis, general and administrative revenue decreased to 35.2% from 41.2% in Q2 2024. Direct costs increased 21% over Q2 2024 from higher advertising fund expenditures due to timing of advertising initiatives and from higher costs that are tied directly to movement in royalty revenues. However, on a percent of sales basis, direct costs declined to 13.1% in second quarter from 14.2% in Q2 2024.
- Adjusted EBITDA grew 48% to \$12.6 million compared to Q2 2024 while Adjusted EBITDA margins increased to 51% from 45% last year. Adjusted EBITDA for Q2 2025 includes \$0.4 million loss from our equity-accounted investment in Heartwood, which began operations in Q2 2025. Adjusted EBITDA margins benefited from the strength of Newton revenue, as well as the decline in operating expenses as a percent of revenue.
- Net income of \$7.7 million increased from \$4.1 million in Q2 2024 due to the higher revenue and the decrease
 in finance expense related to the preferred share liability, partly offset by higher operating expenses and a loss
 on equity-accounted investments. The loss on equity-accounted investments includes a \$0.4 million loss on
 Heartwood.
- Adjusted diluted earnings per common share increased to \$0.10 in Q2 2025 up from \$0.05 last year. Adjusted
 net income increased to \$7.8 million from \$2.6 million in Q2 2024 or up 198%, mainly due to higher revenue,
 strong margin performance, and no longer having any income being attributable to Preferred Shareholders.

- Cash flow from operating activities increased 2% to \$10.8 million from Q2 2024 levels, driven by higher income
 from operations offset by cash used in non-cash working capital and the reduction in finance expense related
 to preferred shares.
- The strong cash flow from operations, coupled with no longer having any free cash flow being attributed to Preferred Shareholders, resulted in \$10.6 million in free cash flow attributable to common shareholders compared to \$4.3 million in Q2 2024.
- The Corporation ended the quarter with adjusted total debt-to-EBITDA (on a trailing twelve-month basis) of 0.51x compared to 0.86x at the same period last year.
- The Corporation increased its quarterly dividend by 33% in May 2025, from \$0.03 per share to \$0.04 per share. The Corporation paid a dividend of \$0.04 per share on June 13, 2025, to shareholders of record on May 30, 2025.

2025 Year-to-Date Financial Review

Year-to-date performance was generally consistent with Q2 trends, reflecting continued revenue growth, as well as strong profitability and cash flow.

- Revenue increased 34% from year-to-date June 30, 2024, to \$43.3 million, and was driven by a 33% increase
 in Funded Mortgage Volume from 2024, as well as an increase in the adoption of Velocity across our broker
 network to 81% from 71% in 2024. Consistent with our Q2 quarterly results, the strong Funded Mortgage
 Volume growth was the result of an increase in the number of brokers in our network, internal initiatives to
 leverage Velocity to increase broker productivity and growth in the Canadian mortgage renewal market.
- Revenue from Franchise and Brokering of Mortgages increased 23% while Newton revenue rose 65%. The change in classification of a third-party supplier revenue from Franchise to Newton, positively impacted Newton revenue and in turn negatively impacted Franchise revenue by \$0.6 million year-to-date ended June 30, 2025.
- General and administrative expenses increased 15% or \$2.2 million over 2024 levels, with the increase stemming from two acquisitions completed in Q2 2024, higher personnel costs, and higher IT-related costs. The additional general and administrative expenses from the two acquired brokerages was \$1.1 million for the six months ended June 30, 2025. On a percent of revenue basis, general and administrative expense declined to 39.8% from 46.3% in 2024. Direct costs increased 16% over 2024 levels stemming from higher advertising fund expenditures due to timing of advertising initiatives and from costs that are tied directly to movement in royalty revenues.
- Adjusted EBITDA grew 53% to \$20.7 million compared to 2024 while Adjusted EBITDA margins increased to
 48% from 42% last year. Adjusted EBITDA for 2025 includes \$0.7 million loss from our equity-accounted
 investment in Heartwood, which commenced operations in Q2, 2025. Adjusted EBITDA margins benefited
 from the strength of Newton revenue as well as the decline in operating expenses as a percent of revenue.
- Net income of \$14.0 million increased from \$6.7 million in 2024 due to the higher revenue, the reduction of finance expense related to the preferred share liability, and a gain on sale of an equity-accounted investment, partly offset by higher operating expenses and a loss on equity-accounted investments. The loss on equity-accounted investments includes \$0.7 million loss on Heartwood.
- Adjusted net income increased to \$12.7 million from \$4.0 million in 2024 or up 214%, mainly due to higher revenue, strong margin performance, and no longer having any income being attributable to Preferred Shareholders.
- Cash flow from operating activities increased 19% to \$18.5 million from 2024 levels, driven by higher income from operations, partly offset by cash used in changes in non-cash working capital.
- The strong cash flow from operations, coupled with a decline in maintenance capital expenditures and no longer having any free cash flow being attributed to Preferred Shareholders, resulted in \$17.4 million in free cash flow attributed to common shareholders compared to \$4.9 million in 2024.

SUMMARY OF QUARTERLY RESULTS

⁽¹⁾ Funded mortgage volumes are presented in billions.

Quarterly trends and seasonality

Funded mortgage volumes are subject to seasonal variances that move in line with the normal home buying season, which is typically highest from June through September.

- Revenue increased in the quarter compared to Q1-2025 primarily due to seasonality and higher funded mortgage volumes during the period.
- Income from operations and adjusted EBITDA increased over Q1-2025, from an increase in revenues, partly
 offset by higher operating expenses. Higher operating expenses was primarily due to timing of advertising
 initiatives and personnel costs.
- Net income increased compared to Q1-2025 primarily due to an increase in income from operations, partly offset by a \$1.4 million gain on sale of an equity-accounted investment in Q1-2025.

 $^{(2) \ \} Please see the Non-IFRS \ Financial \ Performance \ Measures \ section \ of this \ document \ for \ additional \ information.$

⁽³⁾ Net income for the three months ended December 31, 2024 includes \$144.5 million of non-cash finance expense on the Preferred Share liability (three months ended September 30, 2024 includes \$2.0 million expense, three months ended June 30, 2024 includes \$2.7 million expense, and three months ended March 31, 2024 includes \$0.2 million recovery).

OUTLOOK

The information in this section is forward-looking and should be read in conjunction with the Cautionary Note Regarding Forward-Looking Information section.

Ongoing economic uncertainty and a cautious consumer continued to weigh on the Canadian housing market in Q2 2025, with residential sales activity decreasing 2.7% in the second quarter compared to Q2 2024¹.

Despite the slower sales activity levels, the Canadian residential mortgage origination market remained strong, thanks in part to a strong renewal and refinancing market. The renewal market continues to benefit from the pandemic-era borrowing boom as many of these mortgages will mature over the next few years, as will the short-term mortgages that originated amid the 2022-2023 interest rate rise. In addition, DLC Group has continued its focus on increasing broker productivity by leveraging Velocity, expanding its market presence through active recruitment of mortgage professionals and increasing its addressable market size by continuing to educate the Canadian consumer on the benefits of using a mortgage broker.

Velocity continues to be a strong growth driver for the Corporation, with adoption increasing to 82% in Q2, up from 72% last year and 63% in Q2 2023. As we continue to focus on adoption, we are also leveraging the Velocity platform to improve our customer engagement, drive market share gains and introduce new products to Canadian consumers.

During the second quarter, Heartwood, of which DLC Group owns a 40% equity interest, successfully secured funding and commenced operations. Heartwood is a non-B20 residential mortgage lender focused on an underserved segment of the Canadian residential housing market. Heartwood operates independently from the DLC Group, and the Corporation is not responsible for Heartwood's debts or has any credit risk. Heartwood's residential mortgage loans are offered exclusively through DLC Group's network of mortgage professionals to borrowers who are best suited to Heartwood's product offering and qualify under Heartwood's common-sense lending policies. We are excited to report that Heartwood secured its first funded loan in July and overall activity levels to date have been in line with initial expectations. The Corporation continues to expect that Heartwood will adopt a prudent approach to growth in 2025 and believe that over the coming years Heartwood's success will translate into strong profit growth and value for DLC Group and its shareholders.

We ended the quarter with an adjusted total debt-to-EBITDA (on a trailing twelve-month basis) of 0.51x, down from 0.86x last year. While our primary use of excess cash flow is to fund the business growth through organic initiatives and accretive acquisitions and maintaining a strong balance sheet, we are also committed to returning capital to our shareholders. In May 2025, the Corporation's Board of Directors approved a 33% increase to our dividend and in June a new normal course issuer bid ("NCIB") was initiated to purchase, for cancellation, up to 2,100,000 of our outstanding Common Shares.

While we are coming up against some tougher comparable quarters, as the second half of 2024 was a strong growth period for DLC Group, we remain confident in our outlook for the remainder of 2025. We expect to continue to benefit from our focus on recruitment and retention, increased adoption of Velocity, an active renewal market, our ability to source accretive acquisitions, and our strong balance sheet.

LIQUIDITY

	As at						
		June 30,		December 31,			
(in thousands, except shares outstanding)		2025		2024			
Cash	\$	3,810	\$	4,732			
Trade and other receivables		16,873		17,177			
Prepaid expenses and deposits		3,134		2,267			
Revolving loans and borrowings		(561)		(5,176)			
Accounts payable and accrued liabilities		(29,236)		(29,522)			
Term loans and borrowing		(5,152)		(5,152)			
Deferred contract liability		(592)		(551)			
Lease obligation		(681)		(378)			
Working capital deficiency	\$	(12,405)	\$	(16,603)			

Our principal sources of liquidity are cash generated from our business operations and borrowings under our credit facilities. Our primary uses of cash are for operating expenses, recruiting and support costs, debt repayment, and debt servicing costs. At this time, management expects to have sufficient liquidity to meet its short- and long-term objectives of meeting the Corporation's obligations as they come due.

Our capital strategy is aligned with our business strategy and is focused on ensuring that we have sufficient liquidity to fund our operations, service our debt obligations, fund future recruiting opportunities, and drive organic revenue growth to increase free cash flow.

The decrease in working capital deficit from the comparative period is primarily due to:

- Decrease in revolving loans and borrowings primarily from cash inflow from operating activities combined with cash inflow from investing activities from the sale of an equity-accounted investment; and
- trade receivables decreased due to timing of payments.

Working capital may fluctuate from time to time based on seasonality or timing of the use of cash and cash resources to fund operations. The Corporation has credit facilities to support its operations and working capital needs and fluctuations. See the Capital Resources section.

As at June 30, 2025, we have several financial commitments (see Commitments under the Commitments and Contingencies section of this MD&A for further information), which will require that we have various sources of capital to meet the obligations associated with these commitments. The Corporation expects to have sufficient liquidity, and we expect that we will be able to fund these commitments through existing financing and cash flows from operations.

SOURCES AND USES OF CASH

The following table is a summary of our consolidated statement of cash flow:

	Six months ended June 30,					
(in thousands)		2025		2024		
Cash provided by operating activities	\$	18,520	\$	15,600		
Cash used in investing activities		(3,937)		(1,981)		
Cash used in financing activities		(15,505)		(13,852)		
Decrease in cash		(922)		(233)		
Cash, beginning of period		4,732		5,614		
Cash, end of period	\$	3,810	\$	5,381		

Operating activities

	Six months ended June 30,					
(in thousands)		2025		2024		
Cash flow provided by operating activities	\$	18,520	\$	15,600		
Changes in non-cash working capital and other non-cash items		689		(2,309)		
Cash provided by operations excluding changes in non-cash						
working capital and other non-cash items	\$	19,209	\$	13,291		

Cash from operating activities, excluding non-working capital and other non-cash items, increased primarily from higher revenues and income from operations driven by the increase in funded mortgage volumes.

Investing activities

The cash used in investing activities for the six months ended June 30, 2025, consisted primarily of \$4.0 million contributions to equity-accounted investees (\$3.5 million related to Heartwood), \$2.6 million investment in intangible assets, and \$0.2 million distributions paid to non-controlling interests, which was partly offset by \$2.8 million proceeds from sale of an equity-accounted investment.

The cash used in investing activities for the six months ended June 30, 2024, consisted primarily of investments in intangible assets of \$5.0 million (which included payments of \$0.5 million accrued at December 31, 2023) and investments in business acquisitions of \$1.0 million (net of cash acquired), and was partly offset by distributions from equity-accounted investments of \$0.3 million.

Financing activities

Cash used in financing activities for the six months ended June 30, 2025 consisted primarily of repayments on term debt and revolving loans and borrowings of \$7.2 million, \$0.3 million of transaction costs associated with the debt extension to 2030 and additional capacity on the Revolving Facility, \$5.5 million for dividends paid to common shareholders, \$1.2 million for shares purchased by the trust for the RSU plan, \$1.1 million for shares purchased under the NCIB, and lease payments of \$0.2 million.

Cash used in financing activities for the six months ended June 30, 2024, consisted primarily of dividends paid to the Preferred Shareholders of \$3.7 million, dividends paid to common shareholders of \$2.9 million, repayments on debt of \$6.8 million, Common Shares purchased for the RSU plan of \$0.3 million, and lease payments of \$0.2 million.

CAPITAL RESOURCES

Our capital structure is composed of total shareholders' equity and loans and borrowings, less cash. The following table summarizes our capital structure.

·	As at					
	June 30,]	December 31,			
(in thousands)	2024		2024			
Term loans and borrowings, net of debt issuance costs	\$ 27,810	\$	30,718			
Revolving loans and borrowings	561		5,176			
Less: cash	3,810		4,732			
Net loans and borrowings	\$ 24,561	\$	31,162			
Shareholders' equity	\$ 138,902	\$	132,140			

Loans and borrowings

	As at						
	June 30,		December 31,				
(in thousands)	2025		2024				
Revolving loans and borrowings							
Revolving Facility	\$ 561	\$	5,176				
Term loans and borrowings							
Term Facility	\$ 28,334	\$	30,910				
Debt issuance costs	(524)		(192)				
Total term loans and borrowings	\$ 27,810	\$	30,718				

The Corporation's loans and borrowings are composed of two senior credit facilities (collectively, the "Senior Credit Facilities"). The Senior Credit Facilities consist of a revolving working capital credit line (the "Revolving Facility") and a \$36.1 million term loan ("Term Facility").

On February 18, 2025, the Senior Credit Facilities term was extended from December 19, 2026, to February 18, 2030, and the Revolving Facility increased from \$15.0 million to \$25.0 million.

Borrowings under the Senior Credit Facilities are composed of floating-rate advances or Term CORRA advances. Floating-rate advances bear interest at a rate equal to prime plus 0.00% to 0.50%. Term CORRA advances bear interest at a rate determined at the time of their renewal plus a credit fee of 1.75% to 2.25%.

Quarterly financial covenants for the Senior Credit Facilities include the requirement to maintain an adjusted total debt-to-EBITDA ratio of less than 2.75:1.00 and a fixed charged coverage ratio greater than 1.10:1.00. At June 30, 2025, the Corporation's adjusted total debt-to-EBITDA ratio and fixed charge coverage ratio were 0.51:1.00 and 3.81:1.00, respectively, and as such, the Corporation was in compliance with all such covenants.

SHARE CAPITAL

As of August 7, 2025 and June 30, 2025, the Corporation had 78,602,838 Common Shares outstanding (December 31, 2024—78,724,438). As of August 7, 2025 and June 30, 2025, the Corporation had 456,800 and 415,200 Common Shares held in trust under the RSU Plan, respectively (December 31, 2024—265,258).

RSU plan

On April 15, 2024, the Corporation issued 421,444 RSUs to corporate board members and certain executives, which vest on April 15, 2027. On April 15, 2025, the Corporation issued another 335,234 RSUs to corporate board members and certain executives. The 2025 RSUs vest one-third on each of April 15, 2026, April 15, 2027, and April 15, 2028 for management and on April 15, 2028 for independent board members. Pursuant to the RSU Plan, holders are entitled to receive additional RSUs in lieu of dividends on each dividend payment date. As such, for the six months ended June 30, 2025, the Corporation issued an additional 4,873 RSU's in lieu of dividends.

On June 30, 2025, there were 769,903 RSUs issued and outstanding (December 31, 2024-429,796).

An independent trustee purchases Common Shares in the open market and holds such shares until completion of the vesting period. The Common Shares purchased in the open market are initially recorded as a reduction to Share Capital. The grant date fair value of RSUs is recognized over the vesting period as share-based compensation expense, with a corresponding increase to Contributed Surplus. Upon vesting of awards, the related Contributed Surplus is reclassified to Share Capital.

Normal-Course Issuer Bid ("NCIB")

The Corporation implemented an NCIB on June 5, 2025. The NCIB has a twelve-month duration, which commenced on June 5, 2025, and ends the earlier of June 4, 2026, or the date on which the maximum number of Common Shares that can be acquired pursuant to the NCIB are purchased. Under the NCIB, the Corporation may purchase up to 2,100,000 Common Shares, representing 2.5% of the issued and outstanding Common Shares at implementation. Pursuant to the rules of the TSX, the maximum number of Common Shares that the Corporation may purchase under the NCIB in any one day is 19,408, which is 25% of the average daily trading volume of the Common Shares on the TSX for the six-month period ended May 31, 2025 (the total average daily trading volume being 77,635 Common Shares). The Corporation may also make one block purchase per calendar week which exceeds such daily purchase restriction, subject to the rules of the TSX. Any Common Shares purchased pursuant to the NCIB will be cancelled by the Corporation. During the six months ended June 30, 2025, the Corporation made repurchases under the NCIB of 121,600 Common Shares at an average price of \$9.34 per Common Share. The repurchased shares were cancelled and returned to treasury. The actual number of Common Shares purchased, and the timing of any such purchases was determined by the Corporation and were made in accordance with the requirements of the Exchange. Purchases of Common Shares under the NCIB were completed using available working capital. Any shareholder may obtain, for no charge, a copy of the notice in respect of the NCIB filed with the Exchange by contacting the Corporate Secretary of the Corporation at 403-560-0821.

COMMITMENTS AND CONTINGENCIES

COMMITMENTS

The following table summarizes the payments due in the next five years and thereafter in respect to our contractual obligations. See notes 6, 7, and 14 of the financial statements for more information.

(in thousands)	I	ess than 1 year	1	-3 years	4–5 years	After 5 years	Total
Accounts payable and accrued liabilities Term loans and	\$	29,236	\$	-	\$ -	\$ -	\$ 29,236
borrowings ⁽¹⁾ Long-term accrued		5,152		10,303	12,879	-	28,334
liabilities		-		397	-	-	39 7
Leases (2)		454		413	55	-	922
	\$	34,842	\$	11,113	\$ 12,934	\$ -	\$ 58,889

⁽¹⁾ Gross of debt issuance costs.

Contingencies

In the normal course of operations, the Corporation may become involved in, named as a party to, or be the subject of, various legal proceedings, including regulatory proceedings, tax proceedings, and legal actions. The outcome of outstanding, pending, or future proceedings cannot be predicted with certainty. For claims where outcomes are not determinable, no provision for settlement has been made in the condensed consolidated financial statements.

⁽²⁾ Undiscounted lease payments.

OFF-BALANCE SHEET ARRANGEMENTS

We did not have any off-balance sheet arrangements as at August 7, 2025, or June 30, 2025.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

FINANCIAL INSTRUMENTS

Our financial risk management policies have been established to identify and analyze risks that we face, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. We employ risk management strategies to ensure that our risks and related exposures are consistent with our business objectives and risk tolerance levels. While the Board of Directors has the overall responsibility for our risk management framework, our management has the responsibility to administer and monitor these risks.

We are exposed in varying degrees to a variety of risks from the use of financial instruments, which mainly include cash, trade and other receivables, loans and borrowings, investments, and trade payables and accrued liabilities. Because of the use of these financial instruments, we are exposed to risks including market risk, credit risk, and liquidity risk. This section describes our objectives, policies, and processes for managing these risks and the methods used to measure them.

MARKET RISK

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is composed primarily of interest rate risk.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. We are exposed to interest rate risk on our variable-rate loans and borrowings. A 1% change in the interest rates on the loans and borrowings would have had a \$0.1 million and \$0.2 million decrease of income before tax for the three and six months ended June 30, 2025, respectively (June 30, 2024—\$0.1 million and \$0.2 million decrease of income before tax).

CREDIT RISK

Credit risk is the risk of financial loss to the Corporation if a counterparty to a financial instrument fails to meet its contractual obligations. The Corporation's credit risk is mainly attributable to its cash, and trade and other receivables.

The Corporation has determined that its exposure to credit risk on its cash is minimal as the Corporation's cash is held with financial institutions in Canada.

The Corporation's primary source of credit risk, therefore, relates to the possibility of franchisees, agents, or other customers not paying receivables. The Corporation manages its credit risk by performing credit risk evaluations on its franchisees and agents, and by monitoring overdue trade and other receivables. As at June 30, 2025, \$0.4 million of our trade receivables were greater than 90 days outstanding (December 31, 2024—\$0.3 million), and the provision for total expected credit losses as at June 30, 2025 was \$0.4 million (December 31, 2024—\$0.4 million). A decline in economic conditions, or other adverse conditions, could lead to reduced revenue and gross margin, and could impact the collectability of accounts receivable. The Corporation mitigates this risk by monitoring economic conditions and managing its customer credit risk.

The Corporation's maximum exposure to credit risk, as related to certain financial instruments identified in the table below, approximates the carrying value of the assets of the Corporation's condensed consolidated statements of financial position.

	As at			
	June 30,		December 31,	
(in thousands)	2025		2024	
Cash	\$ 3,810	\$	4,732	
Trade receivables, other receivables, and other assets	17,525		17,853	
	\$ 21,335	\$	22,585	

LIQUIDITY RISK

Liquidity risk is the risk that we will not meet our financial obligations as they fall due. We manage this risk by continually monitoring our actual and projected cash flows to ensure there is sufficient liquidity to meet our financial liabilities when they become due. See the Liquidity and Capital Resources section of this MD&A for further discussion on our liquidity risk.

The Corporation's objective when managing its capital is to safeguard its ability to continue as a going concern, so that it generates returns for shareholders, expands business relationships with stakeholders, and identifies risk and allocates its capital accordingly. There can be no guarantee that the Corporation will continue to generate sufficient cash flow from operations to meet required interest and principal payments. Further, the Corporation is subject to the risk that any of its existing indebtedness may not be able to be refinanced upon maturity or that the terms of such refinancing may not be as favorable as the terms of its existing indebtedness.

The credit facilities contain several financial covenants that require the Corporation to meet certain financial ratios and conditions tests. A failure to comply with the obligations in the credit facilities could result in a default which, if not cured or waived, may permit acceleration of the repayment of the relevant indebtedness. If the repayments under the credit facilities were to be accelerated, there can be no assurance that the assets of the Corporation would be sufficient to repay that indebtedness in full.

BUSINESS RISKS AND UNCERTAINTIES

The Corporation is subject to a number of business risks. There were no changes to our principal risks and uncertainties from those reported in our 2024 Annual MD&A and our 2024 Annual Information Form dated March 27, 2025.

RELATED PARTY TRANSACTIONS

Unless otherwise noted, related party transactions were incurred in the normal course of operations and are measured at the amount established and agreed upon by the related parties.

Property leases

The Corporation leases office spaces from related companies controlled by Chris Kayat and Gary Mauris, who are key members of the Corporation's management. During the six months ended June 30, 2025, the total costs incurred under these leases were \$0.2 million (June 30, 2024—\$0.2 million). During the three months ended June 30, 2025, the lease terms were extended for an additional two years, now maturing in 2027.

The Corporation leases a condo in Toronto from a related company controlled by Chris Kayat and Gary Mauris, who are key members of the Corporation's management. During the six months ended June 30, 2025, the total costs incurred under this lease was \$47 thousand (June 30, 2024—\$42 thousand). During the three months ended June 30, 2025, the lease term was extended for an additional two years, and now matures in 2027.

The expenses related to these leases are recorded in finance expense, depreciation and amortization expenses, and general and administrative expenses, and are paid monthly; as such, no amount remains payable within the Corporation's financial statements.

Administrative services

The Corporation has entered into an agreement with a software development company to develop and support a customized mortgage app that is partly owned by key management of the Corporation (Chris Kayat and Gary Mauris). Total fees charged for services under this agreement for the six months ended June 30, 2025 were \$0.5 million (June 30, 2024—\$0.4 million).

CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of these interim financial statements requires management to make certain estimates, judgments, and assumptions that affect the amounts reported and disclosed in the interim financial statements and related notes. These include estimates that, by their nature, are uncertain, and actual results could differ materially from these estimates. The impacts of such estimates may require accounting adjustments based on future results. Revisions to accounting estimates are recognized in the period in which the estimate is revised.

Further information on our critical accounting estimates can be found in the notes to the audited consolidated financial statements for the year ended December 31, 2024, as filed on SEDAR+ at www.sedarplus.com. In preparing these interim financial statements, the significant judgements made by management in applying the Corporation's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2024.

ACCOUNTING POLICIES

The accounting policies applied are consistent with those of the annual financial statements prepared for the year ended December 31, 2024.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

Certain statements in this document constitute forward-looking information under applicable securities legislation. Forward-looking information typically contains statements with words such as "anticipate," "believe," "estimate," "will," "expect," "plan," or similar words suggesting future outcomes or an outlook. Forward-looking information in this document includes, but is not limited to:

- The 2025 outlook and strategic objectives;
- our business plan and growth strategy;
- our expectation that 2025 and 2026 will have a significant amount of mortgage renewals;
- adding additional DLC Group franchises through recruiting activities;
- Newton growing its submission volumes through Velocity, and for the Velocity platform to improve our customer engagement, drive market share gains and introduce new products to Canadian consumers;
- Heartwood will adopt a prudent approach to growth in 2025, and Heartwood's success will translate into strong
 profit growth and value for DLC Group and its shareholders;
- our expectation that our adjusted EBITDA margins will continue to improve throughout fiscal 2025, if revenues increase:
- our expectation that the Corporation will utilize free cash flow to purchase shares under the NCIB;
- our expectation that the Corporation will continue to pay a quarterly dividend to common shareholders; and
- management's ability to adjust cost structures to improve liquidity and cash flow to meet their expectations to
 have sufficient liquidity to meet our obligations as they come due.

Such forward-looking information is based on many estimates and assumptions, including material estimates and assumptions, related to the factors identified below that, while considered reasonable by the Corporation as at the date

of this MD&A considering management's experience and perception of current conditions and expected developments, are inherently subject to significant business, economic, and competitive uncertainties, and contingencies.

Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. Such factors include, but are not limited to:

- Tax rates and legislation;
- operating, general and administrative, and other costs;
- interest rates:
- general business, economic, and market conditions;
- impact and duration of tariffs or other trade actions;
- our ability to obtain services and personnel in a timely manner and at an acceptable cost to carry out our activities;
- DLC Group's ability to maintain its existing number of franchisees and brokers, and add additional franchisees and brokers;
- Newton's ability to grow its connectivity platform submission volumes and number of third-party users;
- Canadian mortgage lending and mortgage brokerage laws and regulations;
- material changes in the aggregate Canadian mortgage lending marketplace;
- fees paid for mortgage brokerage services in Canada;
- regulatory framework for the Canadian housing and lending sectors;
- demand for the Corporation's products;
- the uncertainty of estimates and projections relating to future revenue, taxes, costs, and expenses;
- laws, regulations, or policies;
- the outcome of existing and potential lawsuits, regulatory actions, audits, and assessments; and
- other risks and uncertainties described elsewhere in this document and in our other filings with Canadian securities authorities.

Many of these uncertainties and contingencies may affect our actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, us. Readers are cautioned that forward-looking statements are not guarantees of future performance. All forward-looking statements made in this MD&A are qualified by these cautionary statements. The foregoing list of risks is not exhaustive. The forward-looking information contained in this document is made as of the date hereof and, except as required by applicable securities laws, we undertake no obligation to update publicly or revise any forward-looking statements or information, whether because of new information, future events, or otherwise.

INTERNAL CONTROLS OVER FINANCIAL REPORTING AND DISCLOSURE CONTROLS

The Corporation takes all necessary steps to ensure that material information regarding the Corporation's reports filed or submitted under securities legislation fairly presents the financial information of the Corporation. Management, including the Executive Chairman & Chief Executive Officer ("EC & CEO") and the Chief Financial Officer ("CFO") are responsible for establishing, maintaining, and evaluating disclosure controls and procedures ("DC&P") and internal controls over financing reporting ("ICFR"). Management has used the Committee of Sponsoring Organizations of the Treadway Commission Framework in Internal Controls – Integrated Framework (2013).

There are inherent limitations in all control systems, such that they can provide only reasonable – not absolute – assurance that all control issues, misstatement, or instances of fraud, if any, within the Corporation have been detected.

During the six months ended June 30, 2025, there have not been any changes in the Corporation's ICFR that has materially affected or is reasonably likely to materially affect, the Corporation's ICFR.

NON-IFRS FINANCIAL PERFORMANCE MEASURES

ADJUSTED EBITDA

Adjusted EBITDA is defined as earnings before finance expense, taxes, depreciation, amortization, and any unusual, non-operating, certain non-cash, or one-time items. The Corporation considers its main operating activities to be the business of mortgage brokerage franchising and mortgage broker data connectivity services across Canada, and management of its operating subsidiaries.

The non-cash adjustments are expenses incurred during the period which are not the result of the main operating activities of the Corporation or are related to the financing of these activities. Other expenses are unusual, non-cash, or one-time insignificant items included within "other income" on the consolidated statements of income that are not related to the main operating activities.

While adjusted EBITDA is not a recognized measure under IFRS, management believes that it is a useful supplemental measure as it provides management and investors with an insightful indication of the performance of the Corporation. Adjusted EBITDA is an assessment of its normalized results and cash generated by its main operating activities, prior to the consideration of how these activities are financed or taxed, as a facilitator for valuation and a proxy for cashflow. Management applies adjusted EBITDA in its operational decision making as an indication of the financial performance of its main operating activities.

Investors should be cautioned, however, that adjusted EBITDA should not be construed as an alternative to a statement of cash flows as a measure of liquidity and cash flows. The methodologies we use to determine adjusted EBITDA may differ from those utilized by other issuers or companies and, accordingly, adjusted EBITDA as used in this MD&A may not be comparable to similar measures used by other issuers or companies. Readers are cautioned that adjusted EBITDA should not be construed as an alternative to net income determined in accordance with IFRS as an indicator of an issuer's performance or to cash flows from operating, investing, and financing activities as measures of liquidity and cash flows.

Adjusted EBITDA margin is defined as adjusted EBITDA divided by revenue.

The following table reconciles adjusted EBITDA from income before income tax, which is the most directly-comparable measure calculated in accordance with IFRS:

	Three months ended June 30,		Six months ended June 30,				
(in thousands)		2025	2024		2025		2024
Income before income tax	\$	10,506	\$ 5,873	\$	18,420	\$	9,087
Add back:							
Depreciation and amortization		1,046	938		2,094		1,877
Finance expense		405	703		72 7		1,467
Finance expense on the Preferred Share							
liability		-	2,668		-		2,514
		11,957	10,182		21,241		14,945
Adjustments:							
Share-based payments expense		655	78		742		78
Gain on sale of equity-accounted							
investment		-	(681)		(1,362)		(681)
Non-cash (recovery) impairment of equity-							
accounted investment		-	(38)		-		198
Other expense (income) (1)		27	(1,009)		49		(1,012)
Adjusted EBITDA (2)(3)	\$	12,639	\$ 8,532	\$	20,670	\$	13,528

⁽¹⁾ Other expense (income) for the three and six months ended June 30, 2025 relates to foreign exchange loss and loss on contract settlement. Other (income) expense for the three and six months ended June 30, 2024 relates to the reversal of the liquidation rights liability on the sale of Impact, a loss on the disposal of an intangible asset, foreign exchange loss, and loss on contract settlement.

⁽²⁾ Amortization of franchise rights and relationships of \$1.3 million and \$2.6 million for the three and six months ended June 30, 2025, respectively (June 30, 2024 – \$1.3 million and \$2.6 million), is classified as a charge against revenue and has not been added back for adjusted EBITDA.

⁽³⁾ Adjusted EBITDA includes a loss from our equity-accounted investment in Heartwood of \$0.4 million for the three months ended June 30, 2025 and \$0.7 million for the six months ended June 30, 2025.

FREE CASH FLOW

Free cash flow represents how much cash a business generates after spending what is required to maintain or expand its current asset base. Free cash flow attributable to common shareholders represents the cash available to the Corporation for general corporate purposes, including: repayments on our credit facilities, investment in growth capital expenditures, return of capital to common shareholders through the repurchases of Common Shares and discretionary payment of dividends to common shareholders, and cash to be retained by the company. This is a useful measure that allows management and users to understand the cash available to enhance shareholder value.

The other adjustments are expenses incurred during the period which are not the result of the main operating activities of the Corporation, or are related to the financing of these activities. Other one-time items included within other expense adjustments are insignificant items included within "other income" on the condensed consolidated statements of income that are not related to the main operating activities.

While free cash flow is not a recognized measure under IFRS, management believes that it is a useful supplemental measure as it provides management and investors with an insightful indication of the funds generated by the main operating activities that are available to the Corporation for use in non-operating activities. Free cash flow is determined by adjusting certain investing and financing activities. Investors should be cautioned, however, that free cash flow should not be construed as an alternative to a statement of cash flows as a measure of liquidity and cash flows. The methodologies we use to determine free cash flow may differ from those utilized by other issuers or companies and, accordingly, free cash flow as used in this MD&A may not be comparable to similar measures used by other issuers or companies. Readers are cautioned that free cash flow should not be construed as an alternative to net income determined in accordance with IFRS as indicators of an issuer's performance, or to cash flows from operating, investing, and financing activities as measures of liquidity and cash flows.

The following table reconciles free cash flow from cash flow from operating activities, which is the most directly-comparable measure calculated in accordance with IFRS:

	Three months ended June 30,		Six months ended June 30,		
(in thousands)	2025	2024	2025	2024	
Cash flow from operating activities	\$ 10,777	\$ 10,553	\$ 18,520	\$ 15,640	
Changes in non-cash working capital and					
other non-cash items	716	(1,740)	689	(2,309)	
Cash provided from operations					
excluding changes in non-cash					
working capital and other non-cash					
items	11,493	8,813	19,209	13,331	
Adjustments:					
Distributions from equity-accounted					
investees	-	100	-	285	
Maintenance CAPEX	(687)	(330)	(1,433)	(3,463)	
Lease payments	(103)	(114)	(203)	(226)	
Loss on contract settlement	26	10	39	20	
NCI portion of cash provided from					
operations excluding changes in non-cash					
working capital	(151)	(69)	(246)	(69)	
Other non-cash items (1)	1	(1,019)	10	(1,032)	
	10,579	7,391	17,376	8,846	
Free cash flow attributable to Preferred					
Shareholders (2)	-	(3,121)	-	(3,926)	
Free cash flow attributable to					
common shareholders	\$ 10,579	\$ 4,270	\$ 17,376	\$ 4,920	

⁽¹⁾ Other non-cash items for the three and six months ended June 30, 2025 represent foreign exchange loss and promissory note income. The three months and six ended June 30, 2024 includes gain on disposal of an intangible asset, foreign exchange loss, and promissory note income.

ADJUSTED NET INCOME AND ADJUSTED EPS

Adjusted net income and Adjusted EPS are defined as net income before any unusual or non-operating items such as foreign exchange, fair value adjustments, finance expense on the Preferred Share liability, adjusted net income from the Core Business Operations attributable to the Preferred Shareholders, and one-time non-recurring items. Other one-time items included within other expense adjustments are insignificant items included within "other income" on the condensed consolidated statements of income that are not related to the main operating activities.

While adjusted net income is not a recognized measure under IFRS, management believes that it is a useful supplemental measure as it provides management and investors with an insightful indication of the operational performance of the Corporation by eliminating certain non-recurring items, adjusting for the net income attributable to the Preferred Shareholders, and excluding the finance expense on the Preferred Share liability. Management applies adjusted net income in its operational decision making as an indication of the results and cash generated by the main operating activities, after consideration of how these activities are financed and taxed. Adjusted net income is used to determine adjusted EPS (defined as adjusted net income attributable to common shareholders on a per-share basis).

Investors should be cautioned, however, that adjusted net income should not be construed as an alternative to net income determined in accordance with IFRS as an indicator of an issuer's performance or to cash flows from operating, investing, and financing activities as a measure of liquidity and cash flows. The methodologies we use to determine adjusted net income may differ from those utilized by other issuers or companies and, accordingly, adjusted net income as used in this MD&A may not be comparable to similar measures used by other issuers or companies.

The following table reconciles adjusted net income from net income, which is the most directly-comparable measure calculated in accordance with IFRS:

	Three months ended June 30,		Six months ended June 30,		
(in thousands)	2025	2024	2025	2024	
Net income	\$ 7,726	\$ 4,085	\$ 13,993	\$ 6,716	
Adjustments:					
Gain on sale of equity-accounted					
investment	-	(681)	(1,362)	(681)
